Monitor performance, reliability, and exteriors optimally matched to the Club V S series front-of-house speakers and subs.

Perfect monitors for Club V C Series systems.

- Painstaking selection of parts and components, optimized wooden enclosures, and a thorough reevaluation of speaker capacity take sonic performance to a new level.
- Dual phone jacks and dual Speakon connectors for input and parallel connection
- Protection circuit prevents excessive tweeter input due to acoustic feedback or other causes
- Durable enclosure with arced steel grille, and large metal handles for improved portability
- Angled cabinet for easy monitor placement
- All models are equipped with a pole socket for use with speaker stands.
- The YSProcessing (Yamaha Speaker Processing) switch provided on the EMX series powered mixers and P series amplifiers enhances matching for even greater sonic impact.
