

INSTALLATION MANUAL

Thank you for buying this Briteq® product. To take full advantage of all possibilities and for your own safety, please read these operating instructions very carefully before you start using this unit.

FEATURES

- This kit adapts the “BT-THEATRE YOKE” perfectly to the BT-THEATRE 100MZ and BT-THEATRE 200TW theatre Fresnel.
- The kit consists of these extra parts:
 - 2x Custom-made nylon cylinder
 - 8x M4 “Phillips head” bolt L=25mm
- All installation accessories for easy installation are included

MECHANICAL ASSEMBLY:

DIFFERENT PARTS

You will not need all parts: here is a selection of the parts that you will need / not need anymore.

OLD BRACKET: NOT NEEDED ANYMORE

PARTS NEEDED FOR THE ASSEMBLY

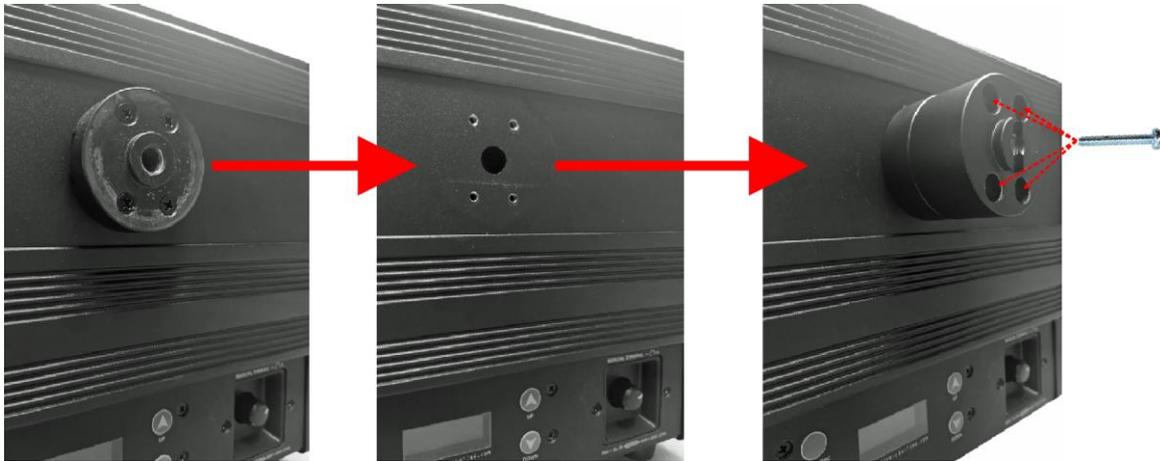

REMOVE THE ORIGINAL BRACKET

1. Unscrew and remove the L-handles on both sides of the projector: not needed anymore!
2. Remove the complete bracket: not needed anymore.
3. Keep the 1 big, thin copper colored washer to properly fix the yoke.

INSTALL THE NEW CYLINDERS

4. Remove the current black cylinders on both sides of the projector: not needed anymore!

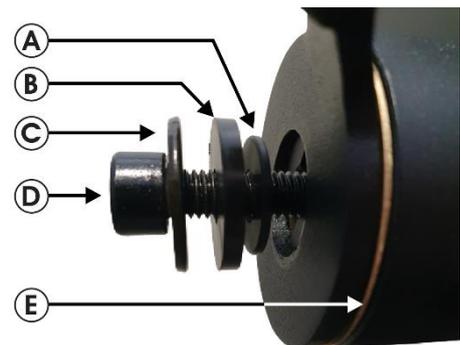

5. Instead fix the new aluminum cylinder from the BT-THEATRE YOKE and the nylon cylinder from the ADAPTER-2 set on both sides of the projector. To do this, use the 8 new M4-bolts included with ADAPTER-2 set

6. Put the copper washer / ring (E) on the **right side** of the projector (side with the display and controls).

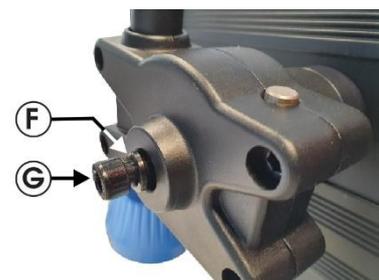

7. Fix the BT-THEATRE YOKE as shown on the picture:

- A) M8 washer, plastic D= 20mm
- B) M8 washer, plastic D= 22mm
- C) M8 washer, metal D= 22mm
- D) M8 HEX bolt L = 20mm

Important remark: don't forget the copper washer / ring (E) otherwise the tilt mechanism will not work well!

8. Turn the projector so the **left side** is facing you.
9. Open the Yoke a little so it can be put over the cylinder
10. Fix the Yoke firmly using the long M8 bolt named "G" + spring washer "F"
11. Done
