# MASK8F-W

8" two-way full range loudspeaker, white

The Apart MASK8F is a robust 8" two-way full range low impedance loudspeaker with timeless design suited for background music up to 'dance level' music. This wooden cabinet loudspeaker is especially designed to produce a full hi-fi sound at a higher power level without using a subwoofer.

MASK8F has a very powerful 8" coated paper cone woofer. Together with the Ferro-fluid cooled silk dome tweeter on a Waveguide horn, this results in a high SPL, an ultra low distortion and a sound that comes close to studio monitor quality. The built-in Auto-Reset 2-step Protection Guard together with the quality components makes MASK8F a fail-safe loudspeaker, even at high power loads! After mounting the bracket on the wall, the sleeve in the bracket makes it quite easy and safe to fix the MASK8F loudspeakers, even in uncomfortable positions.

The cabinet has several thread mounting points tapped at the back, the top and side of the cabinet. This way the cabinet can be rigged or mounting clamps can be used. An extra contractor advantage! MASK8F also has a pole mount adapter in its bottom. This adapter makes it possible to mount the speaker on top of a standard 35mm pole such as the Apart STFLOOR, STSUB and STT. MASK8F is delivered with a metal U-Mounting bracket.

The MASK8F-loudspeakers can be painted in any RAL colour as an option (Ref. PAINT-CAB8) when ordering a minimum of 12 pieces.

TECHNICAL SPECIFICATIONS

height in mm	411	**width in mm**	250
depth in mm	250	**loudspeaker system**	2-way
woofer size in inch	8	**woofer cone material**	paper
tweeter size in inch	1	**mounting system**	U-bracket
colour	black / white	**impedance in ohms**	8
low impedance power in watts	300	**SPL 1W/1m in dB**	90
max SPL 1m in dB	112	**frequency response in Hz**	50 - 25K
main construction material	mdf wood	**grille main material**	steel
IP rating	40	**applicable low impedance**	Yes
applicable in 100V	No
