

MP16-G

Compact sound projector

MP16-G is a 100 volt compact sound projector that produces a natural sound for background music and speech reproduction. This loudspeaker assures you that people hear and understand your messages or advertisements loud and clear in shopping streets, parking lots, loading docks or warehouses.

The MP16-G will stay rust-free thanks to its coated aluminium grille and bracket. The woofer is a 5.5" coated paper dual cone.

The shape of the bracket allows installing without removing the bracket which, a time saving advantage. MP16-G combines a rugged housing with a good sound quality ideal for many industrial or professional applications, indoor as well as outdoors.

The standard color is grey. Optionally the MP16-G can be painted into any RAL color (REF. PAINTMP) when ordering a minimum quantity of 12 pieces.
