

## UVTAPE6020

**SKU:** H10771

5m UV tape  
395nm IP20 60 LEDs/m

---

**Categories:** [Tapes](#), [UV tapes](#)

## TECHNICAL INFORMATION

### General characteristics :

- UV ribbon 60 LEDs/m (720 LEDs per 5 m)
- SMD-5050 LEDs
- Wavelength: 395 nm
- Aperture: 120°.
  
- Power requirement: 14.4 W/m (72 W for 5 m)
- Required voltage: 24 V (+ and -)
- Variable current: With compatible controller only
- IP20: Not resistant to water splashes

### Dimensions:

- Length: 5m roll
- Thickness: 2 mm
- Width: 10 mm
- Dryable every 10 cm (6 Leds)

### Accessories :

- 2-wire input cable (+ and -) pre-mounted
- Pre-assembled 2-wire output cable (+ and -)
- 3M self-adhesive tape along the whole length

## ADDITIONAL INFORMATION

**Input voltage**

24 V
